NATURE OF ADVICE AND OUR RESPONSIBILITIES

Occasionally Vantage will provide general advice in relation to derivatives and foreign exchange contracts. General advice is where we may express an opinion or recommendation influencing you in making a decision in relation to a financial product, but where we have not considered your personal objectives, financial situation or needs. Therefore, any general advice we provide to you may not be appropriate to your needs, financial situation, or objectives.

You should carefully consider your circumstances before making a decision that our financial products are right for you.

You should also obtain and read our PDS and ensure that you understand the risks associated with our products before making a decision.

In providing our service, other financial issues may arise. We are not authorised to assist with any financial products and services except those described above. You should seek specific advice from the appropriate professionals on other matters relevant to you.

HOW TO INSTRUCT US

Before transacting with Vantage, you must open an account with us.

You may then give instructions to us in any of the following ways:

- by telephone, facsimile (by prior arrangement), email or other means; and
- electronically via one of the Vantage trading platforms.

WHAT OUR FINANCIAL PRODUCTS COST YOU

The fees and charges you may be required to pay us when we provide financial services to you are:

- Spread costs;
- Interest on client money;
- Default interest;
- Swap charges;
- Rollover charges;
- Transaction fee;
- Commissions in respect of certain products; and
- Funding fees (applies to Crypto CFDs in Perpetual Crypto Account only).

Spread costs

The Spread is the difference between the bid price (the price at which we are willing to buy from you) and the ask price (the price we are willing to sell to you) the CFD or Margin FX contract you trade.

We earn a spread whenever you trade with us. Of course, all buying and selling is notional because we typically do not actually deliver the underlying asset to you.

Sometimes, to trade on our electronic trading platforms, we will convert your money into, for example, USD, which is an example of when physical delivery does occur.

The Spread is paid by you but is incorporated into the quoted rates and is not an additional charge or fee payable by you above those quoted rates.

Interest on client money

Vantage is entitled to retain any interest it earns in client money held in the client money accounts it maintains according to the Corporations Act. The provider of each segregated account determines the rate of interest.

Default interest

If you fail to pay any amount due to us, we may debit default interest on that amount from your Account.

Default interest will be charged interest at the rate of 3% per annum above the prime lending rate in Australia for the time being in force, calculated on a daily basis from the date of such advance up to and including the date of repayment in full. Such interest is charged in arrears at the end of each business day.

Swap Credits and Charges

Where a Margin FX position or Spot CFD (a CFD whose value is derived from an underlying asset whose price is quoted on a spot market) is held overnight, you may earn or pay interest on your unrealised profit or loss. Contracts are automatically rolled over to the next trading day at the same time that the swap charge/credit is calculated.

In circumstances where the two interest rates are near parity (almost equal to each other), a Swap charge may be imposed for both long and short open Contracts. A double negative Swap Rate implies that there is no interest advantage gained by borrowing in one currency to then invest in the other.

When you close out your Margin FX or Spot CFD Contract, the net amount of the Swap Charges and Swap Credits (which form a part of your Unrealised Profit/Loss) will be credited or debited from your Account. No Swap Charge is payable to us, and no Swap Credit is paid by us if you open and close out a Margin FX or Spot CFD Contract on the same day.

Where an Order for a Spot CFD is held at the close of trade on a Friday, the Swap Charge or Swap Credit is adjusted to reflect the cost of holding the position until the following Monday.

Where an Order for a Margin FX contract is held at the close of trade on a Wednesday, the Swap Charge or Swap Credit is adjusted to reflect interest rate changes in the Underlying Asset until the following Monday.

We receive a transaction fee for providing the Swap Charges or Swap Credits to you. Our transaction fee can be up to 10% of the value of the Swap Charge or Swap Credit received from our Liquidity Providers.

Rollover Benefits and Charges

Some instruments run on an ongoing basis and derive their prices from underlying futures contracts. Because futures contracts expire, when one futures contract ends, we need to change the underlying contract that we derive our price from.

To avoid profit and loss discrepancies, a cash adjustment takes place to reflect the difference between the old order price and the new order price less an administration fee of 0.25%.

Commission

We may charge commissions on certain products in your trading account which will be reflected when you open a Margin FX or CFD contract. The amount of commission we'll charge you will vary based on the currency of your account and will increase/decrease in proportion to the size of the contract traded.

Transaction Fee

We may charge a transaction fee when you trade in Shares CFDs. Typically:

- trading US shares CFDs attracts a fee of 6 USD per transaction converted to the currency of your account.
- trading Hong Kong shares CFDs attracts a fee of 50 HKD or 0.25% of the transaction value (whichever is greater) converted to the currency of your account;
- trading Australian shares CFDs attracts a fee of 0.08% of the transaction value. The minimum charge is 8 AUD per transaction converted to the currency of your account;
- trading United Kingdom shares CFDs attracts a fee of 0.01% of the transaction value. The minimum charge is 10 GBP per transaction converted to the currency of your account;
- trading European shares CFDs attracts a fee of 0.1% of the transaction value. The minimum charge is 10 EUR per transaction converted to the currency of your account.

Funding Fees

The Perpetual Crypto Account is designed specifically for trading Crypto CFDs. This account features a unique fee called the Funding Fee, which is a variable percentage charge applied to your open positions. The Funding Fee is calculated using the following formula:

$$\text{Funding Fee} = \text{Current Price} \times \text{Lot} \times \text{Contract Size} \times \text{Funding Rate}$$

The Funding Fee will be applied three times daily at 03:00, 11:00, and 19:00 at GMT+3. Please note that the platform time may adjust for daylight saving changes. The fee will be reflected in your account within minutes of the application. The exact Funding Rate can be either positive or negative, meaning you may either receive or pay the fee. The rate will fluctuate based on market conditions and will be communicated through the platform.

The Funding Fee applies to all open positions on Crypto CFDs in the Perpetual Account and will be deducted from or added to your balance as a cost or benefit of maintaining these positions.

Credit/Debit card payments

Please note that your bank/financial institution may charge you additional fees for payments made to us by credit or debit card. You should make inquiries about your bank/financial institution in this regard.

Commissions, remuneration and other benefits paid by Vantage

Our directors and employees (including any employees of a related body corporate) are remunerated by way of salary and other employee benefits. They may also be eligible for a discretionary bonus related to business objectives. Certain employees, directors and representatives may also receive up to 100% of all fees and commissions generated from their clients depending on their adherence to compliance procedures, team, and overall company performance. Such payments are discretionary and are generally made in the form of monetary benefits and are paid quarterly or annually.

Vantage's shareholders (including any shareholders of a related body corporate) will also receive a benefit based on Vantage's ongoing company performance.

You may have been referred to us by a service provider who may receive financial or non-financial benefits

from us. The amount of benefit paid to referrers is negotiated on an individual basis and is typically based on the number of clients referred to or introduced to us and the number, and the number of orders traded by clients introduced or referred to us.

Please note that such benefits will not impact transaction fees or the rates and/or prices you will be offered for financial products or services offered by Vantage.

Vantage and/or its representatives may from time to time receive a benefit from preferred product providers such as educational seminars, conferences, and training days. Details of benefits valued at AUD\$300 or above received by Vantage and its representatives will be maintained on a register.

By using or continuing to use our services, you agree that:

- All fees and charges received by Vantage as described in this FSG (other than third party fees and charges) are a benefit given to us by you, in exchange for the services provided by Vantage;
- Vantage does not charge asset-based fees where you are investing using borrowed money;
- You understand, consent to authorise and direct Vantage to charge you in this way.

COMPENSATION ARRANGEMENTS

We have arrangements in place to maintain adequate professional indemnity insurance as required by s912B of the Corporations Act 2001. This insurance provides cover for claims made against us and our representatives including claims in relation to the conduct of representatives who no longer work for us but who did so at the time of the relevant conduct.
